West Lakes Village **Butlins Minehead**

Designed in collaboration with Mumsnet, this landmark scheme involved the design, construction and fit out of 117 chalets at the existing Butlin's resort in Minehead.

Architects *Allison Pike Partnership* worked with principal contractor *McGoff and Byrne* on the exciting £16 million development of 117 chalets located around two lakes with external terraced spaces and walkways, including a bridge. Each of the 'seaside style' chalets has an outside area with many featuring balconies of specified **ecodek®**.

'We are very proud of West Lakes Village and delighted with the feedback we have received from our guests,' said Minehead Resort Director Julian Highfield. *'The bookings for 2015 and 2016 have been quite incredible, and the success of the new chalets is testament to the quality of the workmanship and materials we used'.*
