

## Trafalgar Place **dRMM Architects**

Leading architectural practice dRMM specified **ecodek®** material on their 2016 RIBA Stirling Prize shortlisted project Trafalgar Place.

Completed in 2015, this Lendlease development is a flagship housing project in the regeneration scheme of Elephant and Castle.

Comprising 235 high-quality homes (including 25% affordable housing) the project has successfully integrated the redevelopment with the historic neighbouring buildings.

The inclusion of 25 mature London Plane trees and numerous public pedestrian areas affords a rich and vibrant landscape. All homes within the development have either an **ecodek®** balcony, roof terrace or garden area.

## CASE STUDY

### Project Summary

Commercial and residential redevelopment scheme

### Client

Lend Lease

### Architect

dRMM Architects

### Product & Colour

**ecodek®** Classic Grooved Ribbed Reversible Board in Black
