

Elevate and Protect Your Exterior Walls

Transform your property's exterior with Ecodek composite wall cladding boards, designed to deliver high-performance weather defense alongside a sleek, modern finish. Purpose-built to upgrade any residential or commercial facade, our cladding offers exceptional outdoor performance with minimal maintenance..

Engineered as a protective, rainproof outer covering, these boards act as a shield against heavy rain and driving winds. Unlike traditional timber, our composite material is entirely rot-resistant, insect-proof, and will never require sanding, staining, or painting – meaning less maintenance.

*Limited warranty

Sustainable Engineering, British Quality

Designed and stocked in the UK, Ecodek composite cladding is made from 88% recycled materials, pairing recycled wood fibres with recycled polymers to create an eco-friendly alternative to real wood. It delivers all the rich texture and warmth of natural timber without compromising on structural strength.

Built with true circularity in mind, the boards are fully recyclable, ensuring zero wastage at the end of their lifespan. Every project is backed by a comprehensive 10-year UK warranty for complete peace of mind.

Featuring an intuitive tongue-and-groove profile, each board can be fitted horizontally or vertically, providing complete design flexibility for accent feature walls, full exterior refurbishments, or contemporary architectural extensions.
