# Outdoor spaces deserve materials that settle naturally into the environment.

Our composite decking is crafted to give you a clean, consistent finish with tones that feel at home in any garden.

Choose from a range of colours, textures and styles for different budgets. Boards stay steady through the seasons, with no need for yearly treatment.

Most of our boards are manufactured in the UK and are designed for long term projects. Strong. Stable. Easy to work with. And, importantly, backed by a UK warranty.

All of our boards carry excellent eco credentials, meaning you can create spaces that look considered and feel responsible.

# Creating an outdoor space should feel simple.

## We make the process clear and steady, giving you the guidance you need from first ideas through to final specification.

Creating an outdoor space should feel simple. We make the process clear and steady, giving you the guidance you need from first ideas through to final specification.

We help you explore colours, textures and layouts that feel right for the space. You get support with board selection, technical details and the information needed to plan a confident build.

Our team stays involved throughout the project. Clear documentation. Practical advice. Reliable product data that helps installers and specifiers work smoothly and without uncertainty.

Once the design is agreed, we will prepare everything needed for a well planned installation.

All that is left is to enjoy the finished space. A deck that feels considered, consistent and ready for everyday living.

# Ecodek decking comes in a range of colours and finishes to transform your outdoor living space.

Whether you're looking to transform your patio, build an outdoor bar, or create a roof top retreat, we have a decking collection for you.

## Evolution

Solid composite decking offering a durable, low maintenance finish with reversible rich woodgrain textures, protection against colour fade, and reliable UK tested performance.

## Revive

A dual tone, lightweight, reversible capped board with two colours – featuring a natural woodgrain texture and long term, low maintenance performance.

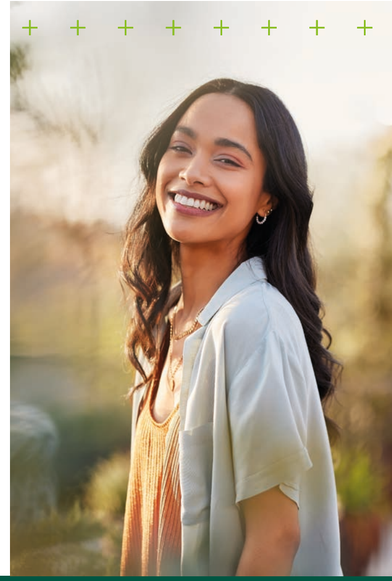

## Heritage

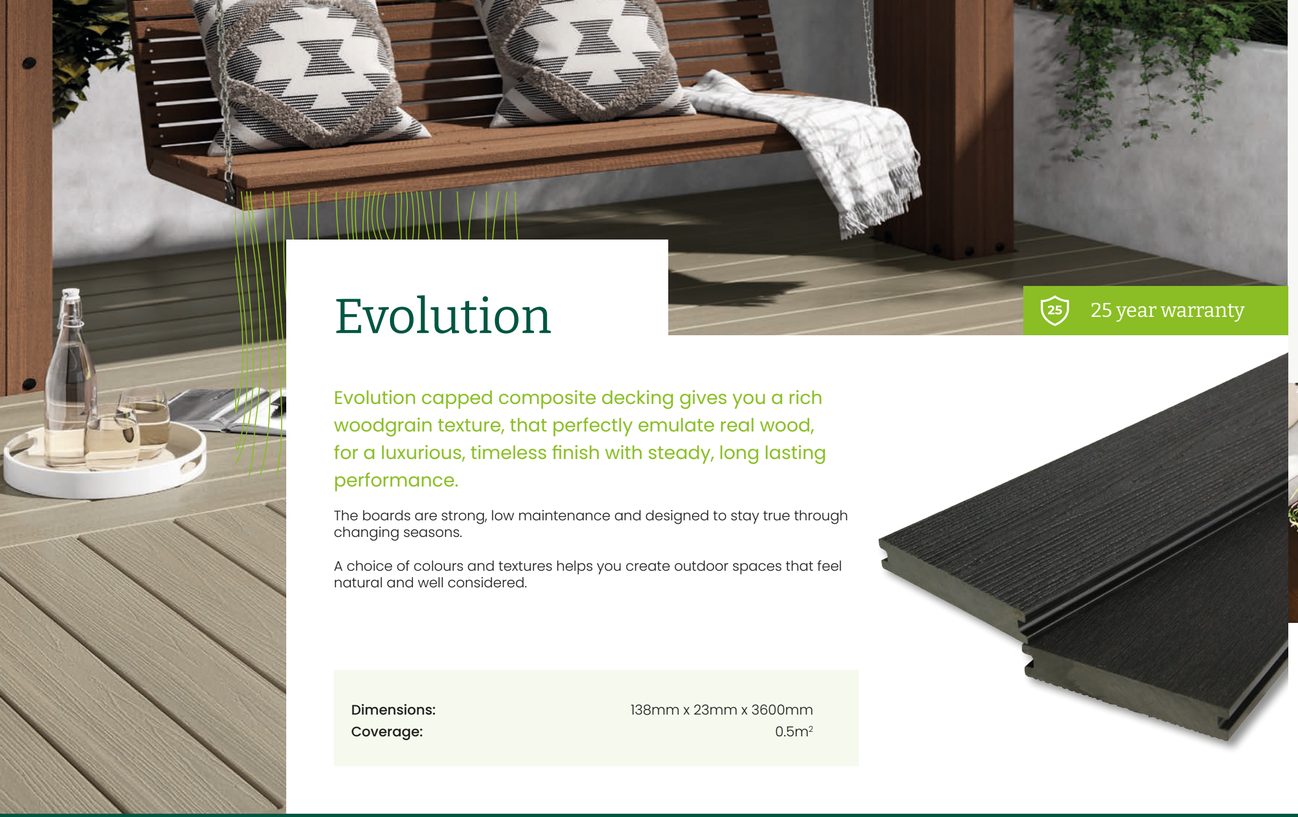

A traditional uncapped deck board that captures the timeless charm of timber, without the maintenance.

## Signature AT

A versatile board, designed with a ribbed texture on one side and a broader, grooved finish on the other.

25 year warranty

# Evolution

Evolution capped composite decking gives you a rich woodgrain texture, that perfectly emulate real wood, for a luxurious, timeless finish with steady, long lasting performance.

The boards are strong, low maintenance and designed to stay true through changing seasons.

A choice of colours and textures helps you create outdoor spaces that feel natural and well considered.

**Ecodek Revive** boards are available in four dual tone combinations

Ash Wood / Birch

Cherry / Oak

Stone Grey / Smoke Grey

Walnut / Black

# Composite - like timber but better

## Low maintenance, durable and sustainable – composite decking gives you all the natural beauty of wood, but without the drawbacks.

Ecodek composite decking offers superior benefits over traditional timber decking. For starters, it's low maintenance with no sanding, sealing or staining required.  A quick sweep and the occasional wash down will keep it looking in top condition.

It's also extremely durable and made to last. Unlike timber, composite decking does not absorb moisture, meaning it will not rot, split or splinter - perfect for withstanding the UK climate.

Finally, Ecodek composite decking is eco-friendly. Made from a blend of sustainably-sourced wood and recycled plastic, it's a champion of sustainability.

## Key features

- Rot, split and slip resistant
- Splinter free
- Easy clean
- Low maintenance with no sanding or sealing required
- Eco-friendly

# Heritage

25 year warranty

Heritage captures the timeless charm of timber decking, with none of the drawbacks.

Featuring a beautiful woodgrain effect that runs through the entire board, Heritage is all about elegance without compromise.

This uncapped decking is easy to install using a traditional screw-fix method. It also offers low-slip potential, delivering on safety as well as style.

**Dimensions:** 136mm x 21mm x 3600mm
**Coverage:** 0.5m²

## Key features

- Wood effect
- Traditional, uncapped board
- Solid core giving a longer lifespan than cheaper hollow composite boards
- Screw-fixed to give the look of traditional timber

**Ecodek Heritage** is available in a number of stylish colour options.

Slate Grey

# Made in Britain

We are proud to be the only British manufacturer of composite decking. Our heritage sits at the centre of everything we do, and it guides the way we design, test and refine every board in our range.

Our decking collections are meticulously designed and crafted at our manufacturing facility in Scunthorpe.

## British craftsmanship and quality

All Ecodek decking is designed and engineered in Britain. Most of our collections are manufactured at our facility in Scunthorpe, where we oversee production, testing and quality control. This gives us complete confidence in the standards we set and the consistency we deliver.

Our approach means every board meets our British quality expectations, whether it is produced in the UK or sourced to support wider demand. It is this commitment to craftsmanship that allows us to offer strong product warranties backed by a knowledgeable UK support team.

# Composite Privacy Fencing

Ecodek composite privacy fencing creates a calm, enclosed boundary with a clean, gap free finish. The solid board design reduces overlooking and helps outdoor spaces feel sheltered and protected.

Each board is made from recycled materials and engineered for long term stability. The colours and textures sit naturally alongside our Evolution and Revive decking ranges, creating a consistent look across the whole outdoor space.

The system is designed and tested in the UK and supported by clear guidance for installers and specifiers. Matching components complete the structure and help create a modern, confident boundary that feels considered from every angle.

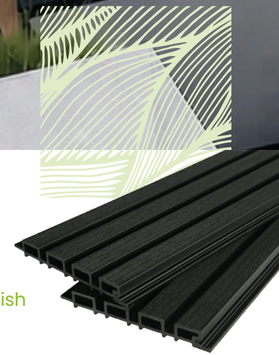

# Composite Cladding

Ecodek composite cladding gives buildings a clean, modern finish with a natural woodgrain look. The boards create a consistent surface that helps exterior walls feel refined and well balanced.

EEach profile is made from recycled materials and engineered for long term stability. Colours and textures are designed to sit perfectly alongside our Evolution and Revive decking ranges, creating a unified look across the entire outdoor space.

The system is designed and tested in the UK and supported by clear guidance for installers and specifiers. Matching trims and components complete the structure and help deliver a confident, weather-resistant finish that lasts.

# An eco-friendly choice

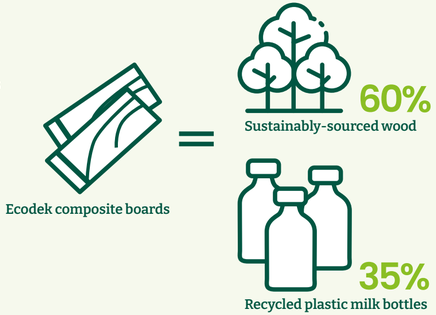

## Our products not only look the part but are good for the environment too.

### Made from up to 95% recycled and sustainably-sourced materials

Ecodek boards are made from a blend of wood fibres and recycled plastic.

Our wood is FSC® (FSC-C105481) and PEFC® (PEFC/16-37-1226) certified, meaning it can be traced back to forests that are managed responsibly and sustainably.

Our recycled plastic comes from consumer waste, often plastic milk bottles.

### Reducing our carbon footprint

We're proud that our production lines have achieved a 'carbon negative' status. We're also currently working towards a Zero to Landfill policy.

And because we manufacture and sell in the UK, our goods have less distance to travel, keeping our carbon footprint to a minimum.

# Composite subframe

Ecodek composite joists, bearers, posts and pedestals are an ideal alternative to timber as they're weather-resistant, hard wearing and will not rot, splinter or warp.

### Joists and bearers

- Low Profile bearers (40mm x 48mm)- ideal for installations with a low distance from the ground.
- Supastiff joists (38mm x 88mm)- ideal for decking on raised outdoor dining areas and balconies.

### Heavy duty support posts

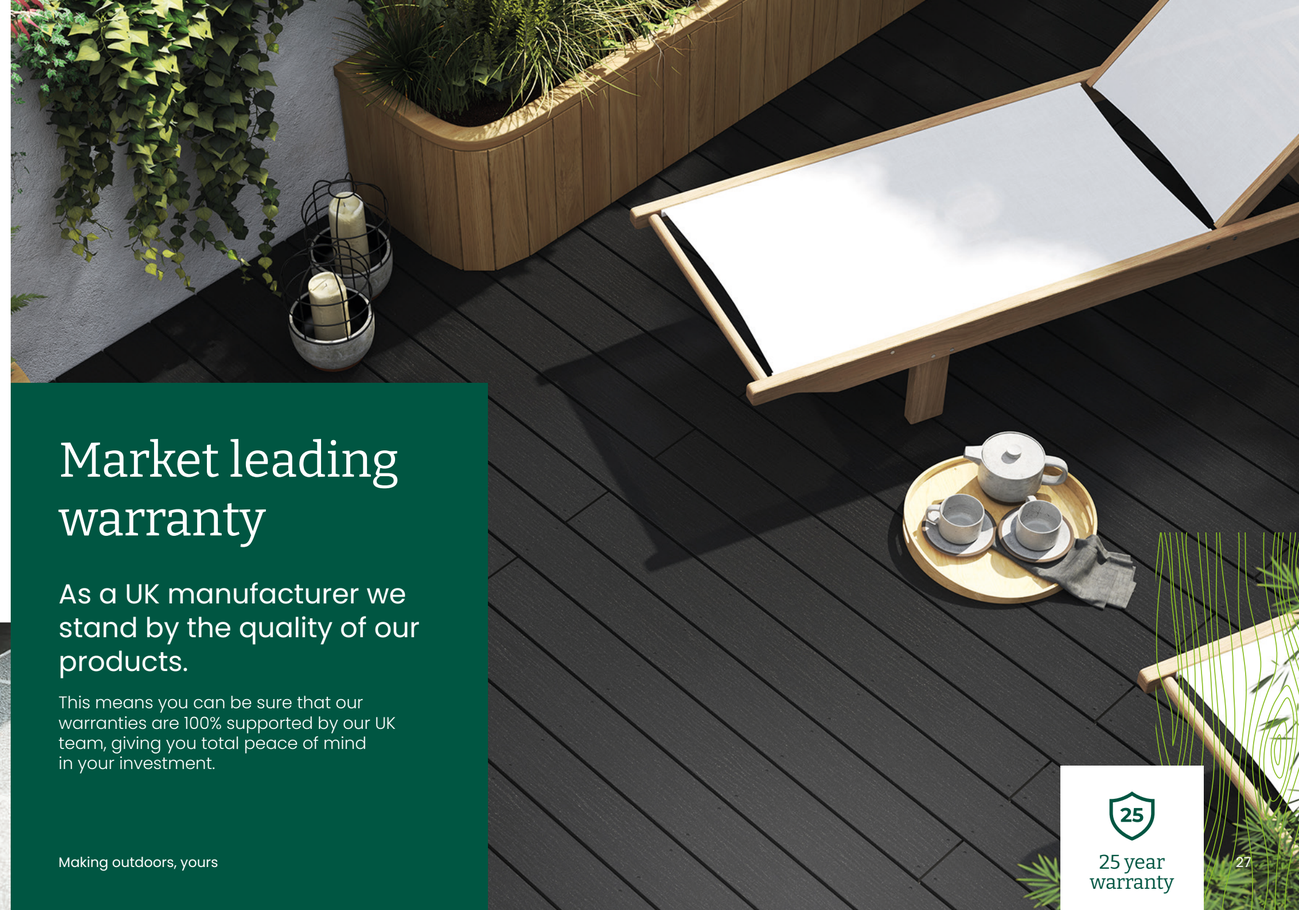

- 1.83m or 2.44m standard lengths to cut down to required height.
- Ideal for decking laid on soil or gravel bases.

### Decking pedestals

- Variable and adjustable height options for faster installation.
- Ideal for concrete, balconies, podiums and roof decks.

# Market leading warranty

## As a UK manufacturer we stand by the quality of our products.

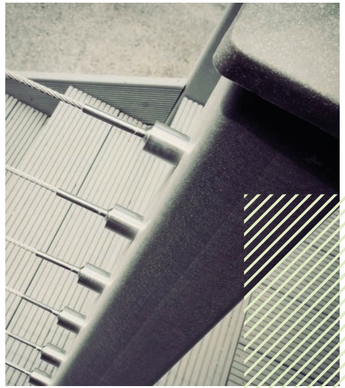

This means you can be sure that our warranties are 100% supported by our UK team, giving you total peace of mind in your investment.

Making outdoors, yours

25 year warranty

# Beautiful balustrades

Whether you're creating a classic or contemporary look, we'll help you find the ideal balustrade to elevate your outdoor space.

## Stylish and practical balustrades

Our balustrade systems come in a variety of designs to suit a range of budgets.

Choose from composite, PVC or stainless steel posts, or go 'frame-less' for a more minimalist look.

We also offer clear, tinted or laminated glass for the perfect finish.

# Quality hot tubs

With powerful, total-body massaging jets and colour therapy lighting, our hot tubs offer the ultimate spa experience.

Our spas seat from three to six people and are simple to install, easy-to-use and designed to keep running costs to a minimum.
