

Revive

Making outdoors, yours

Revive is engineered for real life. A dual tone composite board that gives you choice, durability and long term value without complexity.

Each board is capped for added protection. The hollow profile keeps weight down for easier handling on site. And with two colours on every board, you can shape a deck that works with your space, your style and your plans for the future.

Responsibly made. Built to last.

Revive boards are available in four dual tone combinations.

- Ash Wood / Birch
- Stone Grey / Smoke Grey
- Cherry / Oak
- Walnut / Black

Each board carries two tones, giving you the freedom to choose the finish that works best for your project.

- Rot & split resistant
- Splinter free
- Slip resistant
- Low maintenance
